Office 25 & 27 Fourteenth Street FREW & CAMPBELL,

SATURDAY, DEC. 16, 1976.

BROOKE COUNTY,-The law requires officials elected at the 10th of Octobe election to qualify within 60 days. But there was no court until the 11th of December and they could not qualify within the legal time. Query, are said officials entitled to act, or will they need an enabling act from the Legislature? Another query, does the Oregon case ap ply, and since the regularly elected parties failed to qualify within the time allowed, is there a vacancy? and, if so, do the next highest parties voted for

is \$250; Prosecuting Attorney, \$300; Assessor, \$400. The sum of \$15 is allowed to each of the county papers for publishing the proceedings of court.

THE Republican lawyers who are acting as counsel for the party at New Orleans before the Investigating Committee of Congress, sent a protest to the Committee against the terrorism to which they and their witnesses are subjected even in the very parlors of the hotel where the Committee sit to investigate whether there has really been any such thing as terrorism in Louisiana politics. We should think that the following remarks by a late New Orleans Democratic paper would prepare the minds of the Committee for such protest. The readers will notice how delicately suggestive said remarks are as to the proper fate to be visited upon certain prominent Re-

"Capital punishment is often a desider-atum, but the most of us are disinclined to take upon ourselves the role of the executioner. It is a distaste inherent in the nature of gentlemen, upon which our enemies have coolly calculated.

If suicides were not so self-involved, so taken up with their own miseries to the exclusion of public interests, some of them might have solved the problem for we long ere this; for a man who means to die has nothing to fear in this world and might, with his own taking off, just as well as not, carry along with him a public enemy.

PEOPLE who are "organizing" for a revolution in this government are not encouraged to persevere by the government bond quotations this morning. Gold opened and closed at 7f, and we read in the market report that "governments are strong and on the advance. There is an increased demand for home consumption, and some of the large institution are looking around with a view to purchasing round amounts for investment." The only securities that fell off yesterday were "Louisiana Counsols." They are quoted at 543. When those who are "organizing" get fairly under way they will fall to zero. The most mischieveous enemies of the country's prosperity are those who talk about "or-

Tue several railroads running through Guernsey county, Ohio, are valued and taxed as follows upon the duplicate: Central Ohio Div. B. & O. Road, value, \$440,-262, tax, \$5,540 30; Marietta, Pittsburgh & Cleveland, value, \$84,642, tax, \$1,040 .-17; Eastern Ohio, value, \$2,670, tax, is jubila \$240 68. Total value, \$545,574; total iment. tax, \$9,821 15.

THE EXPERIMENT WITH PNEUMATIC Tunes by the Western Union Telegraph Company in New York is quite success-During the past year the central office in that city has been connected with the branch offices at No. 14 Broad particularly in regions where coal is constreet, No. 142 Forai street, and the Cotton Exchange by pneumatic tubes. The tubes are made of brass, each 2½ inches internal diameter and three-eighths of an inch thick, and laid under the pavements in the streets at a depth of three field. Messages are sent from the central office to the several branch offices by compressed air, and from the branch offices to the central office by atmospheric fields to the central office by atmospheric pressure or vacuum. The motive power is furnished by a 50 horse-power duplex angine situated in the basement of the central office, which operates two double acting air pumps communicating with the compressed and vacuum mains terminating in the operating room. These are connected to the tubes extending will be brought there on the first train. the compressed and vacuum mains terminating in the operating room. These are connected to the tubes extending under the streets by means of double are connected to the tubes extending under the streets by means of double sluice valves, which are so constructed that carriers containing messages may be sent through the tubes in either direction by turning a cock connected with the compressed or exhaust air mains. The time it takes to send a message between the farthest points connected by the tubes, a distance of three-fourths of a mile, is about 1 minute and 20 seconds. The total cost of the system is less than \$30,000, and about one half of the outlay will be saved annually, to say nothing of the saving of time, by the decreased cost of performing the service by pneumatic tubes between these stations as compared with the former cost by wire.

Business at Pittsburgis.

Business at Pittsburgh.

Dispatch of yesterday.]
Business during the past week has been in a very tinssissactory condition, and the outlook, it must be conceded by the most sanguine, is quite discouraging. The excitement over the Presidential election, though gradually subsiding, has not disappeared, and the murmurings of discoutent which disappointment has endiscoutent which disappointment and return with the same and year of the spirits used by the editor of the Hancock Courier, are not the 'spirits of joint and the properties of the spirits used by the editor of the Hancock Courier, are not the 'spirits of joint and the properties of the pr not disappeared, and the murmurings of discontent which disappointment has engendered are a troublesome element to overcome in the present crisis. All new materprises are lying over, and all classes of business men, from the large manufacturer down to the huckster and small dealer, are calculating the possibilities and probabilities of the future, and in the absence of reliable data are keeping their trade under perfect control. It has rarely been known that so many store properties have been "to let" as we now see on our leading thoroughfares, and these area a pretty fair indication of a want of life in trade and of inducements to embark therein.

Reported New Departure in Pol-CHICAGO, December 14.—The Post edi-

torially, takes a new departure. It says:
"The people of the South and Republicans of the North have one point of cordial unity, namely: A mutual hate for the rump end of the Democratic party, as it was that portion which egged the South into the war and then left it to fight out the war, in the meanwhile holding conventions, talking much and doing noth-ing but talk. The golden opportunity is ing but talk. The golden opportunity is now given men who fought each other to become reconciled, to unite on a basis of equal political rights to all men, and the destruction of Northern Democratic sneaks. Ben. Hill should continue as he has begun. His Southern friends must second him promptly, unequivocally, in good faith. The Republicans of the North are ready to meet their Southern brethren on a square basis. The momentous question is, will the patriois of the North and the South use this great opportunity?"

In conversation with a man who has had an intimates acquaintance with

allowed, is there a vacancy? and, if so, do the next highest parties voted for succeed to it?

This trouble is not peculiar to Brooke county at this time. The same lapse occurred throughout the State. All of which shows how wonderfully and beautifully our Democratic legislation has been bungled.

Brooke county proposes to pay off its present bended debt and replace it with 6 per cent bends, thus saving \$1,484 annually in decrease of interest. The debt is \$97,600, and the present rate of interest 7½ per cent. Brooke is a thrifty county and believes in the old adage that a penny saved is a penny earned. Compare her action with that of Wheelingthe city that pays 8 per cent on her over drafts.

Another matter in which Brooke county is economical to a striking degree is in her salaries to public officials. The salary (not including fees) of the Sheriff is \$250; Prosecuting Attorney, \$300; Assessor, \$4400. The sum of \$15 is allowed

will ere long be brought in pesition, and men like Lamar, Gordon and others will give Hill a solid backing, which will sus-

give Hill a solid backing, which will sultain him in his impetuosity.

The Times of this city has started a report which has been given some currency, that Hon. George Armor, Republican Elector of Illinois, is ineligible on account of his being a Scotchman, unnaturalized as yet. Investigation of the facts shows that Mr. Armour, though enfranchised by the Constitution of 1848, afterwards to make his naturalization doubly wards, to make his naturalization doubly certain, took out full naturalization pa-

A gentleman sends the Ohio State Jour nal a copy of the Atlanta Weekly Com monwealth, the last number before the late election, from which it quotes the following paragraphs:

If there is a man in Fulton county, with a white skin, who is so lost to self-respect as to vote for a radical on next Tuesday the community have an interest in knowing who he is, and we call on the Demo-cratic Executive Committee to see to it that the names of all such are enrolled for publication within three days after the

election.

Neither money nor social consideration will deter the Commonwealth from publishing the Roll of Infamy after the election is over. The white men of Fulton, who vote the Radical ticket on Tuesday, are enemies to the people of Georgia, and their names shall be blazoned that all Georgians may know and shun them. This supreme struggle must extend to business and social relations, and he who is base enough to vote for our continued enalayement and degradation, must be made to feel that he has committed a crime against his color, his family, and the best interests of the whole people.

De Palm's Ashes.

Washington (Pa.) Observer Washington (Pa.) Observer.

We are heartily glad that the end of the cremation agony approacheth. De Palm's ashes have yet to be disposed of. the cremation agony approaches. Be Palm's ashes have yet to be disposed of. Thursday noon of last week, after a wait of twenty-four hours, the furnace had cooled enough to allow of the collection of the remains. When placed on the scales they weighed five pounds and a quarter. The weight of the Baron in life was one hundred and seventy pounds. The time consumed in reducing the body was two hours and forty minutes. Total expenses of the cremation \$40. The ashes were finely pulverized, white, dry and deodorized. The Egyptian, copperfaced urn, which perched on the top of the furnace, like Poe's raven on the bust of Pallas, was found inadequate in size, so the nobleman's dust was agnominiously wrapped up in an old newspaper and thrown into Col. Olcott's trunk. Heaped up by itself in the retort was found a half peck of unreduced clay, which had been placed in the body by the embalmer. No one knew of its presence until the door was opened. It was yellow in color and easily distinguishable. Dr. Le Moyne is jubilant over the success of the experiment.

SHAKE off and remove all dust black garment every time it is worn. Nothing sooner defaces a black silk, poplin, or woolen than to wear it shopping, riding or even for the day in the house and the hang it up without removing the dust. The gritty motes with which the air is filled, particularly in regions where coal is con-

ELDER MILTON WELLS, of the Menton and the editor of the Hancock Couries been in a very unsatisfactory condition, and the outlook, it must be conceded by many good things. Here is the last: the most sanguine, is quite discouraging.

"The spirits used by the editor of the

An editor wishes no bodily harm to his subscribers, but he hopes that some of them in arrears will be seized with a re-mitten fever.
